#### **Godzilla Raids Again**

This sequel to the original and hugely successful *Godzilla* was rushed to the theaters six months after the release of the first film. Two new monsters emerged: the first similar to the original Godzilla that was killed by the oxygen destroyer in the first film, and also named Godzilla, the second a spiny dinosaur called Anguirus. The massive battle begins on Iwato Island, tumbles into the ocean, and resurfaces on Osaka, threatening to level the city under the monsters' rage.

#### **Mothra vs. Godzilla aka Godzilla vs. The Thing**

Originally released in the US as *Godzilla vs. The Thing*, this fourth installment in the Godzilla series is considered by many fans as one of the best of the series. When a giant egg washes up on the shores of Tokyo after a typhoon, greedy businessmen seize the opportunity to exhibit the item at an amusement park for profit. The shobijin, fairies from Infant Island, come to plea for the egg's return to its rightful owner, Mothra, but the men refuse the request. Soon Godzilla awakens and begins

a trek across Tokyo, heading straight for Mothra's egg. Can Mothra save her offspring from the destruction of Godzilla? Can Tokyo survive this epic monster battle?
